

Sun-Tech Newsletter Vol 1 (Nov 2007)

In order to share our current and future business prospect and maintain a closer relationship with our business partners, we are glad to announce that a Newsletter will be posted in our web quarterly which aims to provide you most useful product news and moves.

Right Technology at the Right Time for the Right Task

Hong Kong Government understands that to facilitate the use of IT, the most effective learning environment can emerge. In this circumstance, two main technological trends that can shape the learning environment have been identified:

- 1) **The first trend is the use of web-based environment for collaboration and sharing;**
- 2) **The other is “learning anywhere, anytime.”**

Certain funding has been offered to all Kindergarten, Elementary School, High Schools and Colleges who can meet the requirements. Our products, XSCHOOL & i-pol exactly can give some further solutions for the following two main technological trends.

Our New Products – XSCHOOL & i-pol

XSCHOOL is a professional database system, facilitating school’s day-to-day operations. It helps on simplifying school administrative work and enhances the internal communication.

i-pol is an evolutionary learning solution designed to make learning English more fun and easy for all secondary students. It consists of an easy-to-use e-learning platform, comprehensive and carefully designed learning modules including Oral, Listening, Reading, Writing and Grammar & Practical Skills for students with different levels of proficiency.

For more information, kindly visit our website or contact our sales team. A Free Trial version can be sent out upon request.

Schedule on Launching XCLASS 10.0 & DLL 5.0
