

2009 became a history finally, and now it comes to the new page of the New Year, we wish you all the best in 2010!

Although 2009 was found to be a tough year, Sun-Tech did not stop investing in education technology. With the heart of pursuing excellence, our R&D team had spent their effort continuously in product enhancement. Today we are proud to announce that the latest version of XCLASS –**XCLASS EVO** is planned to launch in the first quarter of 2010.

The most wanted and most powerful XCLASS yet – XCLASS EVO

We treasure our customers; therefore, your opinions are always important to us and give us motivation to improve. As a result, XCLASS EVO is developed. Base on customers' comments on previous version, XCLASS EVO is more reliable and advanced, with enhanced broadcasting feature; video sharing is now more stable. Moreover, a newly developed Quiz module will be included in XCLASS EVO and we are sure teachers would like this advancement by relieving their workload. More features would be revealed when it is launched! Please look forward to it! We believe that with the use of XCLASS EVO, together with our DLL and some hardware products like PRO-ONE, a total solution of language laboratory would be offered to you.

The world's largest educational technology event – BETT London 2010

As all of you may know, we have just returned from BETT London 2010. Thanks for all your support in the exhibition, especially for those who came and visited our booth. During the exhibition, we showcased our XCLASS EVO, and received so much positive feedback. We will continue improving it and hopefully, XCLASS EVO will be your favorite education software in the future.

Coming up in 2010

Not only focusing on product development, we are also keen on promoting IT education to different countries. We hope everyone could benefit from IT education by using our products, and enlighten student's interest in study.

Last but not least, we would like to thank again for all your continuous support. Hope that you could get updated information about our current development and future

prospect through this newsletter.

If you have any inquiry about our products, please feel free to contact our Sales Team at sales@suntechgroup.com for further information and product demonstration.
