

Invitation to Worlddidac Basel 2012

With the success gained from GESS 2011 in Dubai last year, we are proud to inform you that Sun-Tech is going to participate in another greatest educational technology exhibition. This year, we shall take part in Worlddidac Basel 2012 which will be held in October and you may find the details as below:

Date : 24th - 26th October, 2012 (Wed - Fri)
Venue : Hall I.O, Messe Basel, Basel, Switzerland
Booth No : F40

As a globally recognized educational technology products developer, instead of being conservative and complacent, we have been working hard on our product development and are keen on promoting our solutions to different countries. Therefore, in Worlddidac Basel 2012, we are going to introduce the latest feature of **XCLASS EVO - New Comprehensive Quiz Module** and the **brand new DLL 6.0** to you. We sincerely hope to meet you there and demonstrate our latest products to you.

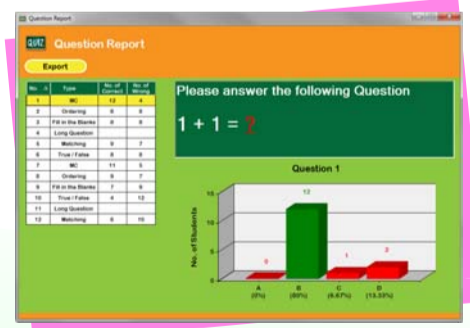

XCLASS EVO - New Comprehensive Quiz Module

In the past exhibitions, XCLASS EVO did impress visitors with its value-added features. However, we never stop our development and satisfy with the result. Instead, we keep striving for improvement and have eventually developed the New Comprehensive Quiz Module which will certainly help teachers in different ways in contemporary learning.

One of the major breakthroughs of this user-friendly quiz module is that multimedia courseware, such as **audio and video based content**. In addition, it allows teacher to prepare quiz in 6 different types of questions including **Multiple Choices, Ordering, Fill in the Blank, True or False, Long Question** and **Matching** easily. Moreover, with **auto-marking** and **summary report** functions, various reports can be generated automatically and presented in Excel as well as Word format for further evaluation.

By adopting our latest Quiz Module, it is no longer a dream to hold a quiz in an environmental friendly way by reducing the amount of question papers and answer sheets used. What's more, teachers' workload can be relieved significantly.
