

As a leading digital language lab solution provider in the ICT education industry, we never stop investing resources in system enhancement which could ease teacher's burden on interactive and multimedia teaching. To meet client's expectation in digital learning, XCLASS now comes with two brand new features, namely, **Keyboard Monitor** and **Printer Management** which allow teachers to enhance their level of supervision. Besides, XCLASS is now supporting with the **Class Merging** function which could be used to simplify class structure with ease. Let's check how the latest features of XCLASS can bring convenience to teachers and students.

### **Keyboard Monitor**

By adopting existing functions, Keyboard Lock and Disable Web, it could effectively help students concentrate on lesson and avoid irrelevant web browsing activities. To minimize the interference of self-learning during the lesson, teacher can supervise students' activities by using Keyboard Monitor. It allows teachers to monitor what students' typed and its active applications instantly. By adopting this function, all personal chatting and unnecessary typing are avoided and students can concentrate on studying during their self-learning.

### **Printer Management**

Checking up students' printings status is no longer required. With our Printer Management, teachers are allowed to resume, pause and even disable students' printing jobs to ensure the resources will not be wasted. What's more, teachers are authorized to decide the maximum pages of printing per job and keep track of printing status anytime. Doubtless to say, this feature provides a high flexibility to teacher to determine the right on using the printer by students so teachers can simply set different level of right on different students.

### **Class Merging**

To simply the class structure and students allocation, XCLASS now comes with class merging function which allows teachers simply merge their classes by just a few clicks. By applying our Class Merging function, the flexibility of class participation and students allocation will be highly enhanced with better manpower and resources arrangement.

Last but not least, we would like to thanks again for all your continuous support. Please reach our sales team at [sales@suntechgroup.com](mailto:sales@suntechgroup.com) for further information of system upgrade and product demonstration.
